Excellent, that's perfect!

Thanks much for you and your office's help on this, I sincerely appreciate the time you've spent going over everything with me!

Yes. I spoke with Bob Helverson on Friday. I've forwarded to him the same email with the monitoring data. I'll be touching base with Bob after he's had a chance to look over the data. He's offered to speak with Mr. Ex. 6 Personal Privacy (PP) so at some point, we'll get the two in touch.

Hey Rick,  
Thanks very much!

By chance, did reps from ATSDR get in contact with you yet?

Hi Ex. 6 PP / Ex. 7(C)

I just received this data from DNREC regarding the Inland Bays WWTP's on-site sampling of monitoring wells. Also included are maps of the WWTP's property showing the locations of the monitoring wells. I just started looking at some of this data. There is a lot and it only goes back to 2015.

Rick

Good morning Rick,

Per our discussion last week, some maps and data are attached. Let me know if you need more info.

Regards,  
Jenn

**Subject:** Inland Bays Data

Jenn,

Attached please find an excel spreadsheet containing the monitoring data on record for the Inland Bays WWTP exported from the DEN for 2015 through the present. The spreadsheet contains groundwater monitoring data, as well as, influent, effluent, lysimeter and observation well data.

I have also attached the most recent, most inclusive, Engineered Drawing Site Map on record for the existing permitted sites (provided to the GWDS in 2017); however, it does not appear to contain the locations of the lysimeters nor MW-29 (252815). Therefore, I have also attached the Site Maps from the most recent Amended Operation Permit. Please note, the well on the North Map in the top right corner covered by the permit info is MW-12, 208214.

Please let me know if you should require any additional information.
